Following a successful career transition thanks to specialized training at OpenClassRooms, I'm a React-focused front-end developer, ready to bring my analytical mind and project management experience to the digital age. After a decade in retail, where I developed a strong ability to manage priorities and work as part of a team, I'm now fully dedicated to the development of modern, responsive applications.

## Education

### Node.js - Express.js training

Since May 2024 Web Bordeaux

Online course to upgrade to full stack JS

### Web Integration Training

From October 2023 to April 2024 OPENCLASSROOMS Bordeaux

During this in-depth training, I acquired the skills needed to design, develop and optimize complete, responsive web applications. I am now able to:

- **Create a complete, responsive web application** that adapts to all types of devices.
- **Energize web pages** with fluid animations.
- **Create interfaces that communicate with the site's back-end** to build dynamic applications and enable customers to identify themselves on the site.
- **Optimize the performance and maintenance of existing websites** to ensure optimal performance and visibility on search engines.
- **Manage a web project from A to Z:** from costing and breaking down project tasks to presenting the solution, including drafting technical specifications.

This training also enabled me to master the most in-demand technologies and languages such as HTML, CSS, SASS, JavaScript, React & Redux, API calls, as well as essential tools like Visual Studio Code, responsive design, and Git & GitHub.

### Management Degree

From 2008 to 2012 Grenoble Ecole de Management Grenoble

## Skills

**Create a responsive user interface**

**Create dynamic animations**

Using pure CSS or libraries such as GSAP, react-scroll-parallax etc...

**Communicate with back-end through API calls**

**Debugging a site using tests**

**Create and improve a website's SEO**

**Write easily maintainable code**

## Technologies web

HTML - CSS

Vanilla JavaScript

React - React Router - Redux

Bootstrap

React librairies

Git & GitHub

## Soft Skills

**Team player**

**Clear and easy communication**

**Autonomy**

**Well organized**

**Pugnacity**
